

LONDON BUSINESS VISIT

15th May - 18th May 2023

Scottish
Chambers of
Commerce
International
Network

The Scottish Chambers of Commerce (SCC) London initiative leads policy engagement on behalf of businesses in Scotland on key reserved issues including energy, telecommunications, foreign affairs and trade, defence and taxation.

Powers reserved to the UK Government in these areas are vitally important to Scotland's businesses and the wider Scottish economy and SCC will cover a range of business issues including infrastructure, investment and international trade during this visit.

Established as Scottish business's premium political and commercial networking and influencing forum in the capital, we offer you the exclusive chance to meet global and national business leaders, Ambassadors, international business owners and participate in roundtables and attend the British Chambers of Commerce Global Conference.
